

Raster Design 2010

System Requirements as Recommended by Autodesk

AutoCAD® Raster Design software requires one or more of the following Autodesk products to be installed prior to installation:

- AutoCAD® 2010
- AutoCAD® Architecture 2010
- AutoCAD® Electrical 2010
- AutoCAD® Civil 3D® 2010
- AutoCAD® Civil 2010
- AutoCAD® Map 3D 2010
- AutoCAD® Mechanical 2010
- AutoCAD® MEP 2010
- AutoCAD® P&ID 2010
- Autodesk® Topobase™ 2010

The system requirements below are in addition to the hardware requirements for the Autodesk product upon which AutoCAD Raster Design is installed.

For 32-bit AutoCAD Raster Design

- Microsoft® Windows® XP Home or Professional edition (SP2 or SP3), or Microsoft® Windows Vista® (SP1), including Home Premium, Enterprise, Business, or Ultimate
- Intel® Pentium® 4 or better
- 200 MB free disk space for installation
- DVD drive

Note: 32-bit versions of AutoCAD Raster Design 2010 software cannot be installed on 64-bit versions of AutoCAD-based 2010 software.

For 64-bit AutoCAD Raster Design

- Windows XP Professional x64 Edition (SP2 or SP3), or Windows Vista
- Intel Pentium 4 or better
- 200 MB free disk space for installation
- DVD drive

Optional Software

- Citrix® XenApp™ 4.5 or 5.0 (Citrix Ready™ AutoCAD Map 3D 2010 software is required)
