

Q & A

Q: How do I access my online class?

A: After purchasing your course, Ideate will email you login information. From your personal computer (home or office) you can access training through the online portal 24/7.

Q: Are there tests to quantify what I've learned?

A: Progress tests are available at the end of each section to demonstrate your knowledge.

Q: What hardware and software is required for On-Demand training?

A: Users must have a computer with high speed internet access and speakers. It is also recommended that students have a recent version of the Autodesk software used for training.

Q: How long do users have to complete training?

A: Students have 1 year from the date of purchase to complete their course(s). Each login is good for 1 student and is non-transferable.

AutoCAD 2012: The Complete Guide is designed to give you a solid understanding of AutoCAD 2012 features and capabilities from the basics through to advanced and complex 3D modeling components. Every course is designed to use all learning styles from text, audio, video, interactivity, quizzes and practical “Let Me Try” examples.

To get the most out of this course, we strongly recommend you review every topic within the course, and use all the learning styles to ensure you retain the important information within. We also encourage you to take all the progress tests to ensure you have retained the knowledge, and most importantly practice with the hundreds of real world, Let Me Try examples.

Learning Objectives

- Lecture 1: Getting Started
- Lecture 2: Basic Drawing Skills
- Lecture 3: Using Drawing Aids
- Lecture 4: Editing Entities
- Lecture 5: Shaping Curves
- Lecture 6: Controlling Object Visibility and Appearance
- Lecture 7: Organizing Objects
- Lecture 8: Hatching and Gradients
- Lecture 9: Working with Blocks and Xrefs
- Lecture 10: Creating and Editing Text
- Lecture 11: Dimensioning
- Lecture 12: Keeping In Control with Constraints
- Lecture 13: Working with Layouts and Annotative Objects
- Lecture 14: Printing and Plotting
- Lecture 15: Storing, Presenting, and Extracting Data
- Lecture 16: Navigating 3D Models
- Lecture 17: Modeling in 3D
- Lecture 18: Presenting Your Design

Prerequisites

You don't need any previous experience with AutoCAD to take this course; however, it does assume a reasonable level of experience with the Windows operating system on your part.

Recommended Supported Browsers

- Internet Explorer 9
- Internet Explorer 8
- Firefox 3.6
- Firefox 3.5
- Chrome

Other browsers are supported but you may experience some limitations on certain Learning Management System or course functions.
