

Ideate On-Demand

Revit Architecture

Advanced 2012

Q & A

Q: How do I access my online class?

A: After purchasing your course, Ideate will email you login information. From your personal computer (home or office) you can access training through the online portal 24/7.

Q: Are there tests to quantify what I've learned?

A: Progress tests are available at the end of each section to demonstrate your knowledge.

Q: What hardware and software is required for On-Demand training?

A: Users must have a computer with high speed internet access and speakers. It is also recommended that students have a recent version of the Autodesk software used for training.

Q: How long do users have to complete training?

A: Students have 1 year from the date of purchase to complete their course(s). Each login is good for 1 student and is non-transferable.

Revit Architecture 2012: The Complete Guide is designed to give you a solid understanding of Autodesk® Revit® Architecture 2012 features and capabilities from the basics through to advanced components. Every course is designed to use all learning styles from text, audio, video, interactivity, quizzes and practical “Let Me Try” examples.

To get the most out of this course, we strongly recommend you review every topic within the course, and use all the learning styles to ensure you retain the important information within. We also encourage you to take all the progress tests to ensure you have retained the knowledge, and most importantly practice with the hundreds of real world, Let Me Try examples.

Learning Objectives

- Lecture 1: Introducing Revit and the User Interface
- Lecture 2: Schematic Design
- Lecture 3: Walls and Curtain Walls
- Lecture 4: Floors, Roofs, and Ceilings
- Lecture 5: Stairs, Ramps, and Railings
- Lecture 6: Adding Families
- Lecture 7: Modifying Families
- Lecture 8: Groups and Phasing
