IDEATE EXPLORER FOR REVIT® TO BE UNVEILED IN LAS VEGAS.

San Francisco, CA — November 21, 2008 — Ideate Inc., a leading provider of training, support, custom services and Autodesk® Software, announces the debut of Ideate Explorer for Revit® 2009 at Autodesk University 2008, Venetian Hotel and Conference Center, Las Vegas, Nevada, December 2-5, 2008.

Ideate Explorer empowers users to explore the Revit BIM model and audit Revit projects to maintain office standards. Users can search, quantify and view individual building elements by category, family, type, level and room. Users can also examine and change the current selection, inspect the current view or project, build complex selections from scratch and zoom to individual building elements.

Ideate Explorer employs an intuitive interface familiar to anyone who has searched the web or explored their hard drive. Text searches and hierarchical views enable users to find building elements hidden deep within the Revit model. Search results can be copied to Microsoft® Excel® and Word® to generate reports and create presentation materials.

Explorer works with Revit® Architecture 2009, Revit® Structure 2009, and Revit® MEP 2009. The \$95.00 purchase price includes a free upgrade to version 2.0, Ideate Explorer for Revit 2010. Current Ideate Subscription or Premium customers receive Ideate Explorer at no additional charge.
